PROFESSIONAL SUMMARY

Computer Science graduate and software engineer with hands-on experience developing a full-stack real-estate platform. Work spans frontend and backend application development, REST APIs, relational databases, authentication and authorization, containerized deployment, reverse-proxy configuration, cloud-related infrastructure, background processing, and technical documentation. Town Ruins is the primary project record; artifacts establish implemented work, but not a current live runtime, production outcomes, or personal product ownership.

ENGINEERING EXPERIENCE

Town Ruins - Real-Estate Marketplace

Software engineering contribution across a full-stack real-estate marketplace. React/TypeScript frontend; Node.js/Express backend; REST APIs; database-backed workflows; property/listing lifecycle; Prisma/PostgreSQL schema and migrations; authentication; role-aware authorization; payment/webhook and reconciliation code; notifications and background workers; Docker, Compose, Nginx, Linux, environment configuration, AWS-related deployment/S3 configuration, and technical and operational documentation.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, HTML, CSS

Frontend: React, responsive web development, frontend/API integration

Backend: Node.js, Express, REST APIs, authentication, authorization, RBAC

Databases: PostgreSQL, relational modelling, migrations, data management

Infrastructure: Docker, Compose, Nginx, Linux, AWS-related configuration

Engineering/Operations: Git, GitHub, CI/CD workflows, API integration, documentation

SELECTED PROJECT

Town Ruins - Full-stack property marketplace spanning application, APIs, PostgreSQL/Prisma persistence, access control, payment and notification workflows, Docker/Nginx configuration, and supporting documentation.

EDUCATION

Africa University - Bachelor of Science in Computer Science, 2021-2025

GPA: 3.32/4.00

CORE ENGINEERING CAPABILITIES

Full-stack engineering; backend engineering; database engineering; infrastructure and deployment; systems thinking across services, data, networking, and operations.

CERTIFICATIONS

No credentials listed: certifications in the supplied CV were not independently verified.
